Names, phone Nos. of Public Information Officers, first appellate authority is displayed on office notice board.	One applicant should apply for one single information rather than demanding wholesome records of many years together. For fear of penalty most of the staff devotes 75% of time in collection of very voluminous records pertaining to many years at the cost of other urgent, important official work. There are some persons who keep on demanding one voluminous information after another. Law needs to be amended to ensure it does not become tool of intimidation. The time for collection of records particularly the record prior to computerization needs to be enhanced from 30 days to 90 days.
